

RUSS HENCH

THE GARDENER'S OTHER PASSIONS

LANDSCAPE DESIGN:

My main profession is Landscape Designer. I have worked in this field all of my adult life starting in 1979. I have developed many unique projects in my career, most all residential. I can provide plans and ideas for patios, decks, pergolas, fire lounges/areas, plantings, privacy screenings and water features. Many of you are familiar with our home landscape at 414 23rd St. NW, Canton, Ohio. Would you like to tour our grounds? Please contact me.

Landscape plans can vary greatly in scale and price. Plans can start at \$250.00 up to \$800 or more. If you just want a consultation.

• **\$75.00 per hour, port to port**

INTERIOR DESIGN:

Although I am not schooled in this field, my 'artist's eye' has been very helpful with interiors. I also have been applauded by professional interior designers for my abilities. Interior design does not always have to be a total re-do. I can help with furniture re-location/swapping from other rooms, picture hanging/re-arranging, etc.

If you would like to see a sample of my interior work, we could set up a meeting for you to visit our home.

• **\$75.00 per hour, port to port**

ART WORK AND ART COMMISSIONS

I am an artist and have been strong in art since first grade. This talent that I have been blessed with has been a great influence to me in most aspects of my life. I create fine art mostly for interiors. Mixed media, metal, collage and assemblage are what I excel in most. I create artwork for sale and have participated in many shows. (keep an eye out for my yearly Art Sale in our gardens in the early Fall)

I have also had great success with creating artwork for many friends and customers over the years. I work closely with my customers to ensure the art that I been commissioned to produce is personal and pleasing to them. I would like to create something specifically for you.

• **Please contact me and we can talk**
